

Research Gap

- Many present day businesses including IT companies swear by Vedic Management.
- The features common to Vedic Management and modern business management principles could have been discussed in greater detail. The present study seeks to bridge the gap between Vedic general management principles and present day business.

Research Gap

- This unusual topic which takes up Vedic Principles and relates the same with organizational management, individual management, personal excellence and professional excellence is the rarest of the rare study.
- Many research articles have been written on the topic “Vedic Management and Organizational Effectiveness”: this was known through the review of literature.
